

**46TH WORLD MILITARY
MODERN PENTATHLON CHAMPIONSHIP
Budapest - HUN**

WELCOME GREETING

Esteemed Competitors, Dear Friends of Sport,

It is a great honor for Hungary, the Hungarian Defence Forces, our soldier athletes and for the HONVÉD Sports Club Budapest that our country hosts the CISM 46th World Military Modern Pentathlon Championship.

The Pentathlon (consisting of running, jumping, throwing the spear, throwing the discus and wrestling) was introduced for the first time at the 18th Olympiad in 708 BC and held a position of unique importance in the Games.

2619 years later, in 1911, during the 14th session of the International Olympic Committee in Budapest, the Modern Pentathlon was re-introduced as an olympic sport created from important military skills as fencing, swimming, horse riding, shooting and running.

The founder of the Modern Olympics, Baron Pierre de Coubertin believed, that Modern Pentathlon tested a man's moral qualities as much as his physical resources and skills, producing thereby the ideal, complete athlete.

Connecting the words of Baron Coubertin, everywhere in the world, the "complete soldiers" form a close-knit community based on joint service and camaraderie. I wish you to be able to further strengthen the military community of athletes around the world, go beyond your limits, have new experiences, make new friendships here in Budapest, and return to your country with outstanding sporting achievements.

Brigadier General Attila TAKÁCS

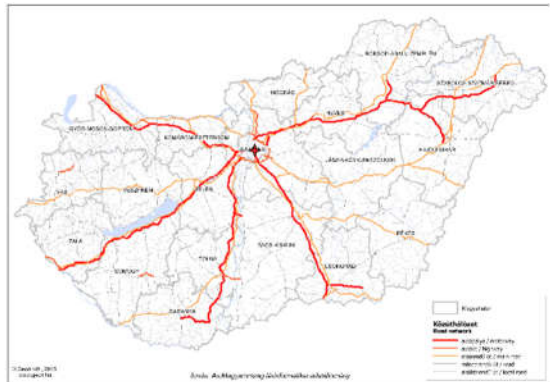

Chairman of the Organizing Committee

1. GENERAL INFORMATION

1.1 Host City Budapest

Hungary lies in the middle of Europe, in the Carpathian Basin since its foundation, which 1100th anniversary was celebrated in 1996. Its capital is Budapest. Hungary has about 10 million inhabitants. Form of government: Republic. Countries that border Hungary are Austria, Slovakia, Ukraine, Romania, Serbia, Croatia and Slovenia. Hungary is member of the NATO since 1999 and European Union (EU) since 2004. In Hungarian the country is called "Magyarország"

Hungary's geography is defined by its two main waterways, the Danube and the Tisza. These two rivers divide the country into three sections: Dunántúl (literally "beyond the Danube" or Transdanubia), Tiszántúl ("beyond the Tisza"), and Duna-Tisza köze ("between the Danube and Tisza"). Transdanubia is a primarily hilly

region which includes the very eastern stretch of the Alps (called Alpokalja), the Transdanubian Mountains in the central region, and the Mecsek and Villány Mountains (both famous for their vineyards) in the south. The northern part of the country is covered by the foothills of the Carpathians. Hungary's highest peak with its 1014 metres, The Kékes, is also found here. The country is home to the world's largest thermal water cave system and the second largest thermal lake – „Hévíz” in Hungarian, the largest lake in Central Europe – Lake Balaton – and Europe's largest natural grasslands – The Great Hungarian Plain or „Alföld” in Hungarian.
